

Emerson School  
1200 W. Hickory  
Duncan, OK 73533  
580-255-7146

November 19, 2007

Dear Parents,

I have attached the accountability report for the 2006-2007 school year. Federal law requires that we make this information available to you. The first page shows the scores for the Duncan district as a whole. Students are tested in specific grades in reading and math. The back page shows scores for just Emerson. The scores are then broken down into numerous student groups. Duncan Public Schools' overall academic score has increased over the previous year. Emerson also continues to improve. We are above the current benchmarks set by the state. These two pages are just a summary of the scores. Additional detailed information is available in the office if you are interested. This report is just one of the tools used by our school, the Oklahoma State Department of Education, as well as the federal government to monitor school improvement.

If you have any questions regarding this report, please contact our office and we will try to answer them.

Respectfully,

Eva Spaulding  
Principal
